

ŞEKERLİSOY

Şekerlisoy Holding, established in 1987, operates in pharmaceuticals, healthcare, energy, gastronomy, tourism, and real estate.

Pharmaceutical and healthcare investments include two private hospitals with 410-bed capacity each, a dialysis center, a medical company, two pharmaceutical warehouses, a foreign trade company, and a domestic company specializing in life science and analytical chemistry.

In real estate, the holding has thirteen pioneering projects comprising over 1,000 independent units valued at 100 million USD.

In tourism, the holding operates hotels across eleven locations with over 3,500 beds and achieving 99% customer satisfaction, along with three beach clubs and a water sports center.

The energy division includes a 320,000 m² solar energy field producing 16 MW.

In gastronomy, the holding owns twenty-four restaurants with a combined capacity of 3,000 people, planned to be opened in Mersin, Istanbul, and abroad. Throughout its 37-year history, Şekerlisoy Holding prioritizes strong communication, fast, and solution-oriented approaches in its interactions with partners, stakeholders, and customers.

How it Works

STEP 1 :

Order request arrives.

Proforma is forwarded

Client approves the details and order is activated.

STEP 2 :

Products are gathered from supplier channels

Products are packed according to dangerous goods restrictions

Client will be informed (LOT Numbers, MSDS Documents, DG Packaging if needed).

STEP 3 :

Reservation is made for the transfer. Packing list, commercial invoice, documents of transfer, CoO and CoA are shared.

It is ensured that the products reach the customer.

Quality Assurance

As a Pharamananda team, we continually plan and implement, innovate and scale faster, gain full visibility and trust while creating sustainable processes.
